This email will serve as my zvit because I cannot be at Rada due to a prior commitment.

Upon coming home from last year's Rada, I called our Kyrinna and relayed the message below, removing myself from the prapor committee for the reasons stated.

I then emailed the same info in november, upon plans for our first Hurtkovi cxodyny.

Please let the record show this same info as my report, together with the info that the prapor design ideas presented at last year's Rada were presented without the prior knowledge of, or consultation with, the members of the Prapor Committee.

I still hope to continue to be a "referent" Xyctok - and if you like, people can email me with their needs. All unneeded solid black xyctky should be returned to me for laundry/ironing for reuse for future kandydatky. Unless someone else really begs for this job!

Also, please know that I respectfully remove myself from the Prapor Committee to free it up completely for future design/completion plans/work.

I nominate AHHA Ortynska to be Holova Komitety: I believe that she is the only Spartanka that I can think of to lead this project to completion. AHHA knows the history and feel of Plast and past prapory visuals, meanings, and has better computer knowledge than I to direct this project in this digital age. (I work with my hands, and draw by hand, not computer). And she made the original connection for us with Iwan Kinal. I simply feel that I have nothing more to offer to move this project forward. Plus, it would free up the committee to design without any of my past KPS involvement - they can start fresh. Plus she can do this sitting down - I know that she is recovering from foot

surgery.

Of course, I will pass on any and all info that I have on this project, with the warmest desire to move it forward.

And of course, I will be happy to work on other projects that we will undoubtedly have coming up in the future.

tsioms,

Duzhe diakyu,

Irka,

Rada is being held at St. Mary's Villa in Sloatsburg, NY which is run by the Sister Servants of Mary Immaculate – Sestry Sluzhebnysti Presviatoyi Divy Mariyi. It has nothing to do with Basilians. Please make that correction.

Dear Irtsiu!

It was so nice to chat with you last night. I'm sorry I wasn't able to help you in the search for your successor, please understand that I am honored to have been asked, especially since I was asked by you! I think you have been a fabulous kurinna, and I am grateful to you for your leadership.

I did, however want to bring up an idea I had for a project that may benefit the kurin that I would like to manage. Please let me know what you think and if you think this is a good idea or not.

I think that overall, Ukes do not do a good job of networking amongst ourselves when it comes to jobs, and helping each other kids get into schools and internships we may have connections to.

I thought it would be great to have a database of spartanky that would be managed by me and updated regularly that would include all family members, current positions in career, company affiliations, alma maters, outside interests and talents, children's current school and major or position, etc, etc, etc. I could work up an online questionnaire to be distributed to all.

This info would obviously stay within the kurin and would only be used for networking within our own spartanka "family". This is an extension of the career info we shared with one another at previous rady, and will keep us updated on each others lives and successes as well as needs.

Unfortunately, I have an early wedding on Saturday and will need to leave by noon. Maybe we could discuss this on Friday if time allows. (only if you think it is a good idea).

Irka,

I will have my zvit ready for you tomorrow. (I haven't typed it yet).
Also, I would like to add that I am willing to take hurtkova again, unless someone else wants it.

Finally, I wanted to start the Spartanka multiply site and I am willing to take that role as well.
Perhaps one of our sxodyny will be to teach everyone how to use it.

Hope you all have a great time!

Subject: A few things before Rada

Date: Sun, 16 Sep 2007 8:48 pm

Hi Irka,

I just wanted to speak to you about a few things before Rada.

One was that I wanted to be considered for Micto abo Zastupnycha Kurinnoyi because I would like to work with kandidatura. I have met all these adult women and kids (girls) from Germany and would like to work together with Starshi Plastuny to help build up the kurin. I believe there are only 6 of them.

Second I wanted to state for the agenda that I hope to resurrect Kinnij Tabir for Yunatsvo for next year.

I will have a zvit for the recycling Program and Pochatkovij tabir(together with Chrystia Kozak).

I am now on the Social club committee at the Cultural Center and am doing an Andrijivskij Vechir type thing (Evening of Fortunes) for adults but was hoping that maybe Spartanky could do it for Yunatvo again this year and then we could carry over to adult for the Social Club that evening for members of the Center. It is during Pist or Advent and a nice event before Xmas on a Friday night. What do you think?

Lastly, I have noticed that Spartanky do not wear their odnostroyi during typical Plastovi Sviata like Vidkryttia Plastovoho Roku or other Sviata that our children are dressed. I know that it is a personal thing but can we find out what is proper and who should actually be in their odnostroyi and why? Also a hutirka on Odnostrij and how it should look might be of value since some people really seem to be lax these days. Plus we have some kandydantky removed from Plast for many years or even from Sum that may not know about this. Am I being too nitpicky?

Anyways, i have to leave by 1PM on Saturday to pick up my kids from Uke school and then I have Mykola's birthday sleepover party for 10 11yearolds so I hope to do my zvit early during narady if possible.

Thanks Irka,

Petrusia

Needs for Pochatkoviyy Tabir

We now do maystryvannia and have pidvechirok outside, in back of the barrack, under gazebos. The two old picnic tables that we use need to be replaced, as they have weathered over the years, and kids are getting a lot of splinters. I would recommend that these get replaced by resin, collapsible picnic tables. They cost ~\$100 each at BJ's, for a 6 foot table (with attached benches).

We also use a buffet table (6 foot, collapsible) as a staging surface for maystryvannia and pidvechirok. I have left mine behind at Vovcha, but would like to replace it. Cost is ~\$50 at BJ's.

I have also left my two 8'x10' gazebos at tabir, which we have used for the past four years. I have recently purchased a replacement for myself, \$94.40 at BJ's. If I could get reimbursed for this, it would be great, but if not – no problem, it will be a donation for tabir.

We should get a large resin outdoor storage bin. That way, we can keep all of our taborovi supplies separate from other Vovcha items. The existing storage room (shtab), which is accessible from the outside, now contains some of our stuff, some Vovcha stuff, and some speakers/amplifiers. I would recommend a large bin with a combination lock, with only Spartanky knowing the combination.
Cost is ~\$---

And a small plastic organizer for office supplies.
Cost is ~\$10.

One issue is that these items are quite large, and it will be challenging to get them to Vovcha. I do not have a vehicle to transport them, nor would I recommend that someone drive these up from home. Does anyone have any suggestions?

go \$1000

Spartanky,

Our final headcount is 39 - a great turnout!

As a reminder, here is a list of things you should bring:

- *Black shirt/pants*
- *Povniy Odnostrij*
- *Zvit (if applies)*
- *Checkbook*
- *Snacks*
- *Camera*
- *BYOB*

I'm re-attaching the directions. We went up this past weekend to look at the accomodations and just to clarify - all the beds are singles - some rooms are double occupany, others are single occupany. If for any reason your plans have changed and you cannot stay over on Friday nite, please let me know. We were able to accomodate everyone based on their requests, so if we need to change anything - the earlier we know the better. Diakuyu.

Imagine, Spartanky having their rada at a nunnery.....who would have thought!

At recycling

Hi Irka,

Project Wild

What a wonderful newsletter!! I love to be reminded of all the good stuff we all do as a team. It makes me very proud and happy to be a part of this group that graciously does so much.

Unfortunately, I will not be able to attend schodyny because we will be visiting my Alia who's been away all semester. But with regard to the recycling program, I have been in contact with Ivanka Iwaskiw (whom I am copying) since she has access to programs, catalogs and web sites since she is an environmental engineer herself or close to the profession as an engineer.

I have attended the main OTK meeting and formally announced that we intended to support recycling at Vovcha and have outlined "Phase 1" of the program.

Phase 1 basically looks like this:

1. Spartanky agreed at Rada 2006 to provide receptacles (2 novak camp, 2 in yunak camps, 1 in U2, 1 in Pochatkovij, 1 in kitchen area and 1 near kramnychka) primarily for water bottle (1 and 2 type) collection. The kitchen would also have bins or receptacles for glass and metal. Kramnychka would have for aluminum cans as well. Ivanka has access to catalogs as estimated prices for these receptacles. We can label them with Spartan colors and with catchy slogans like "plastuny chystiat svit" or the like.

2. We need to write a simple program to implement into doskil which is weekend or Friday before tabir starts so our vychovnyky are aware of this new Recycling Program. It will be simple and will possibly suggest a vmilist during tabir.

3. Dyszhurnij at the kuchnia will need to be instructed as to how to try and recycle around the kuchnia without stepping on any toes. Cans and metal in certain bins, glass in others.

4. We will try to replace the styrofoam plates and heavy plastic cups with paper products. OTK agreed with me where we will suggest this for the next order and use up the stuff already bought probably in high quantities. Our approach will be to try to suggest and encourage a change this Phase 1 period. We don't want the kitchen saying those Spartanky want us to do so much more work. We would like everyone to feel they are doing this for the good of the tabir and the earth. This is the real Plastova idea, right?

Spartanky
 not
 cover the \$Δ

5. Chrystia Stasiuk as hnizdova said that possibly as an Earth Day project (April 25th) the boys hnizdo would make a giant poster (maybe 4ft by 6feet) that can permanently hang at Vovcha to display times required for various things to decompose ie. paper 3 months, plastics years, styrofoam 100 years etc. Should we copy this as a reminder to Chrystia?

6. Ivanka contacted the actual recycling center that is very near tabir and has some information on that. Our kurin will have to pick up the cost of the delivery at the end of tabir to drive to the Recycling Center. Hopefully we will be able to pay someone at the tabir to do this if we collect the receptables the last day of tabir ourselves or else pay someone else to do this. I suggest we get one volunteer Spartanka for every camp to pick up the container and be responsible to bring it by the kitchen. This would make it a team effort and not dump the responsibility on the Vovcha (OTK)staff which is exactly what I DO NOT want to do. Maybe NY hurtor could volunteer on this as well.

7. Maybe we could put a sentence or two into the final newsletter that goes out to parents regarding check in

procedures. Should we suggest that the kid bring those refillable water containers from campmore? Or we could mention that we are now recycling and expect parents to set the right example.

So that is Phase 1 in a nut shell. Phase 2 might be a better way of recycling of paper in administratsia for example or in the barracks during majstruvannia.

I hope Ivanka will be able to come and present her ideas and possibly the cost vs say Home Depot brand. I think the stuff in her catalogs might be more durable and will last longer as long as we store them for the winter.

Please call me if there any other questions about this. New Number is 973-794-3022

Xrystia Kozak has put in the oholoshennia for Pochakovij Tabir for 1 tura during the last week of regular tabir. We're not sure how many kids in that age group there are this week. She agreed to be komendantka and has Xrystia Centore(our Spartanka) and Iko Danyluk as he rchosen komanda. I have one girl (Magun) who wants to be in bulava as well as A. Pitio who is in the process of filling out forms. Our PT committe will meet once we start get applications either by teleconference or other to finalize komanda bulava and kids accepted as we have done every year before.

Hope you have a good turnout and wish you a positive buzz at schodyny.

Subject: RE: SV 2007 Sport
Date: Thu, 29 Mar 2007 3:36 PM

Hi Irka and Vira:

Hope all is well and we make it through this.

Basically:

Sport is the only activity that will not be scored toward the overall tochkyvanya for SV-2007. So, it is really up to you guys to complete the logistics. It has been decided already that track and field is it with a couple of team sports. HOWEVER, this does not mean that we are not working together.

I think the below questions can be answered as follows:

INDIVIDUAL SPORTS:

I would recommend two groups (younger and older).

It would not be fair for a 13 year old to compete against a 16 year old.

I don't think it matters how you break up the groups as long as you keep track of the scores/times along with the name age of the participant. However, it probably would work better if you break in age groups to make it more competitive/fun. The second half of the day - bring out the top 5 in each event and conduct finals for each event/age group getting to 1st,2nd, and 3rd in each event.

I will bring the kids down after lunch in sport clothes (sunday) and you guys break them up as you see fit. I will provide you access on Saturday or Sunday, depending when you guys come - with a list of the unaku/unachku and age. It doesn't matter for the individual events where they are from.

TEAM SPORTS:

We were thinking vollyball, tug-of war, relay races (age divided), etc..

You can pick depending on your thoughts or ideas. These will have to be stanucha divided.

IN GENERAL:

Come up with a way to conduct these events from approx: 1:30 - 6:00. You might want to do individual sports first, then team sports, then finals for individual sports. You will have to break for pidvechirok, or the kuhnya can \bring out the pidvechirok out to the sports field - you can choose.

I would recommend that the team sports be final elimination to not have finals (brackets maybey).

Each 1,2,3 will get a medal,bylava, or if you want to recommend - you can purchase and we will reimburse. You guys should probably get the awards so you can personalize them according to your kurin.

THE OSELIA:

I have spoken already at length with Sonia Bokalo with matters other than sport. Please contact her for logistocs for the events. I am sure we can get the long

jump pit in order and high jump with mattresses, etc.. . Or you can tell her to get the track in shape during spring cleanup. The xmeli could help on saturday do some work, but we will be building the vatra - terenova hra, etc..

Last year there were approx 8 kurins for boys and girls split almost evenly with 80 boys and 80 girls. I would expect approx. the same.

Thank you very much - have a great meeting tommorrow night - have fun. I hope I have helped - keep in touch

Hi Xrystiu!

Hope that all is well with you, and that your trip is going well.

As you may know, Lida Mochula's fahter-in-law passed away last week. Vasyl Mochula was a major plastun in Passaic - it was a very moving panachyda and poxoron.

One of the "tsily" for which they were gathering money was Plast v Ukraini. In the name of Spartanky, it would be appropriate to contribute in Vasyl Mochula's name. Unless you have thoughts otherwise, could you make out a check for \$100 to Plast, Inc., with the notation "v pamjati Basylia Mochuly" (in Uki) on the memo line. Please send the check to me, and I will include it in a condolence card to Lida from the kurin. Darka Patti said that the contributions are going to the family memebers, and that Lida would pass it on .
